

MASS IMPACT™

VANILLA FLAVOR

PRODUCT INFO SHEET

Description

Dr. K's Mass Impact™ has the highest biological value of any known naturally-occurring protein. It features cross flow micro-filtered whey protein with very high branched-chain amino acid (BCAA) levels (25% of the protein is composed of BCAAs) and easy-to-absorb forms of amino acids (di- and tri-peptides) which may be excellent for absorption and nitrogen retention.*

Dr. K's Mass Impact™ is the perfect choice!

- Perfect for athletes who demand the highest quality protein source available and increased branched-chain amino acid intake.
- Perfect for anyone who desires a fat-free, low carbohydrate protein source.
- Perfect for those who are lactose intolerant because it is lactose-free.
- Perfect for those who want convenience because it is easy to mix.

What Makes Dr. K's Mass Impact™ Different:

- Unique "cross flow micro-filtration" supplying higher levels of undenatured protein.

Percentage Undenatured Protein in Typical Analysis

Cross Flow Micro-Filtration98.0%
 Ion Exchange 90.0%
 Cross flow micro-filtration yields 8% more undenatured protein.

- Highest biological value protein
- High level of naturally-occurring branched-chain amino acids (25% of protein)
- Specially pre-digested to contain di- and tri-peptides which may help absorption.
- Low glycemic index
- Fat-free
- Lactose-free
- No artificial flavors or sweeteners (no aspartame, no acesulfame K)
- Sucrose-free
- Low sodium
- Easy to use – it mixes easily
- Vanilla Flavor with other Natural Flavors

Dosage

SUGGESTED USE: As a dietary supplement, add about one scoop (23g) to six ounces of water or beverage of your choice. **Dr. K's Mass Impact™** may also be mixed with fruit to make delicious high protein shake or used in your favorite food (e.g. pancakes, oatmeal, chili, etc.)

NOTICE: Use this product as a food supplement only.
